

MINIMUS-2R RECESSED

Posted on August 1, 2024 by admin

411

We are expanding the MINIMUS-2 series with the R model, the recessed model in walls, ceilings, wooden, and metallic finishes... The minimum expression, now recessed and with a frame that allows for an easy installation. Small in size, the different light options in its interior make the MINIMUS series, and specifically the MINUMIS-2R, an essential series and model to practically any project.
