The REFUNDUS is a 4-model family that has similar uses but serves different needs. Its frames are designed to be recessed in plasterboard walls (and ceilings) where there is only one thing in sight: the light. Without glaring the user, they allow to light up such rooms as bedrooms, corridors, dining rooms, living rooms, offices, etc., in a way that they absolutely integrate to architecture. They remain invisible and give off an elegant atmosphere, and the designer can spare himself from using the visible lamps when the architecture doesn't require them. It comes in 4 different versions -(P) flat on the wall, (I) in an interior corner, (E) in an exterior corner, and the BIG REFUNDUS, which is the same as the (P) but bigger, to achieve a bigger impact whenever necessary.
