Nuvola System

The NUVOLA System is a versatile system that adapts to the needs of the project, the designer's idea, and ultimately, the space. It can be manufactured almost to any size. It can be used as an independent recessed, surface-mounted, or suspended luminaire, or else adapted to the ceiling or wall of the space involved.

Designed to achieve general and homogeneous lighting where the light source remains hidden, its translucent diffuser creates a natural light effect according to the given application in the space used. The system is perfectly compatible with accent lights that could be incorporated into the system itself or externally.

The light source also allows many options, from warm or cool white light to a monochrome system, through RGB or Digital RGB or even color temperature change or reproducing the "circadian cycle." All of this, programmable, offers endless combinations that can adapt to almost any project.

El NUVOLA System és un sistema versàtil que s'adapta a les necessitats del projecte, a la idea del dissenyador i, en definitiva, a l'espai. Es pot fabricar pràcticament a la mida que es vulgui. Tant com a lluminària independent encastada, de superfície o suspesa, com adaptada al sostre o la paret que tingui l'espai en qüestió.

Dissenyada per aconseguir una il·luminació general i homogènia on la font de llum resta oculta. El seu difusor translúcid crea l'efecte de llum natural en funció de l'aplicació que se li doni en l'espai utilitzat. És un sistema perfectament combinable amb llums d'accent que podrien anar incorporats en el propi sistema o de manera externa.

La font de llum també permet moltes opcions. Des d'una llum blanca càlida o més freda, a una llum unicolor, passant pel sistema RGB o RGB Digital o fins i tot canvi de temperatura de color o reproduint el "cicle circadià". Tot això, programable, ens ofereix infinitat de combinacions que s'adaptarien a tota mena de projectes.

Characteristics

- It is manufactured in two types of diffusers: textile fabric and PVC stretched fabric.
- It can incorporate an anti-insect protective fabric.
- There is an acoustic version that serves to attenuate noise.
- The screen-printed version of the diffuser allows us a great deal of play with spaces, decoration, signage, etc.
- It can be recessed, surface-mounted, or suspended.
- Its design makes it possible to minimize glare (UGR<19), which makes it suitable for office spaces.
- *Es fabrica en 2 tipus de difusor; tela tèxtil i tela tensada de PVC.*
- *Pot incorporar un tela protectora anti-insectes.*
- *N'hi ha la versió acústica, concebuda per atenuar els sorolls.*
- *La versió serigrafiada del difusor ens permet jugar molt amb els espais, la decoració, la senyalètica, etc...*
- *Encastada, de superfície i suspesa.*
- *El seu disseny permet minimitzar l'enlluernament (UGR<19), la qual cosa el fa apte per la utilització en espais d'oficines*
